## **A Suggested Proposal for Diversification of Funding Sources in Training Modules at TVTC**

### **Abstract:**

The current study aimed to submit a suggested proposal for diversification of funding sources in training modules at TVTC. The study sought to answer the following questions:

- What are obstacles in the path of diversification of funding sources in training modules at TVTC based on the study sample?
- What are requirements necessary to diversify of funding sources in training modules at TVTC based on the study sample?
- What are the proposed alternatives for diversification of funding sources in training modules at TVTC based on the study sample?
- What is the suggested proposal to determine the funding sources in training modules at TVTC, which contribute to the achievement of independent financial incomes for training modules at the TVTC?

The researcher adopted the Descriptive and Analytical approach in this study; he designed questionnaires for collecting information required by the study individuals associated with Technical Colleges, Industrial Training Institutes and Institute of Architecture and Construction in Kingdom of Saudi Arabia, numbering (386) individual.

The study concluded the most prominent obstacles to diversifying funding sources in the training modules of the TVTC, as well as the most important requirements for diversifying the sources of funding in the training modules of the TVTC, and a set of proposed alternatives to diversify the sources of funding

in the training modules of the TVTC and concluded the results of the study is to arrive at a proposed scenario to diversify the funding sources in the training modules of the TVTC.
